

Computing

Internet Safety

Databases—investigate the concept of ‘big data’ and its use in the world. Create and search flat-file databases.

English

In English, this term, we will be learning about mystery and suspense and studying the text, *Boy in the Tower* by Polly Ho-Yen. We will develop our instructional and persuasive writing skills and continue to work on our handwriting, spelling and grammatical skills. In reading, our focus will be on comprehension by answering questions about the texts we read.

Art/Design

In Art, we will be developing our skills, using watercolour paints to produce illuminated letters and in design, we will be doing food technology.

History/Geography

History will take us back to the Anglo-Saxon period where we will find out about why they came to Britain, what they did and how they lived.

In Geography, we will continue our work on world locational knowledge and start to explore land-use and settlements.

ASPEN CLASS

Spring Term

Science

In Science, we will continue our work learning about different forces and, then, we will be moving on to finding out about materials and their properties.

PE

Hockey, Dance, Games and Gymnastics

MUSIC—Charanga

Make You Feel My Love
Fresh Prince of Bel Air

Maths

In Maths, we will be developing our use and understanding of formal written calculation methods. We will be revisiting and extending our work on fractions, including how to add, subtract, order and compare. We will be focussing on developing our fluency skills for quick recall and our reasoning skills to explain our thinking, when working mathematically.

RE—Christianity and Judaism

PSHE—The working world

Spanish—key words and phrases
